

GAF Certified Plus™ Contractor:

This emblem is a mark of distinction.

What it takes to become a GAF Certified Plus™ Contractor

Every GAF Certified Plus™ Contractor* must be insured and licensed in states where they operate (if required). In addition to performance expectations, GAF also considers factors such as years of roofing experience, credit rating, and overall standing with the Better Business Bureau.

Only a highly select group of roofers in North America are GAF Certified Plus™ Contractors.

*Contractors enrolled in GAF certification programs are not employees or agents of GAF, and GAF does not control or otherwise supervise these independent businesses. Contractors may receive benefits, such as loyalty rewards points and discounts on marketing tools from GAF for participating in the program and offering GAF enhanced warranties, which require the use of a minimum amount of GAF products. Your dealings with a Contractor, and any services they provide to you, are subject to the *Contractor Terms of Use*. Visit gaf.com/gaf-contractor-terms-of-use for details.

Your connection to stronger GAF warranties

Workmanship coverage is an important differentiator when choosing a residential roof warranty. Standard product warranties often include the labor required to repair or replace a covered component due to a manufacturing defect but don't cover mistakes made by the contractor.

A GAF Certified Plus™ Contractor like me can offer the *GAF Silver Pledge™ Limited Warranty*, which provides workmanship coverage for 10 years.
